**Time**      **10:00 AM**

**Location:**      **AEEC**

**Sprint #**      **1**

## **Sprint Review Attendees**

1. Darwin Layog – Product Owner
2. Jane Yoon – Business User
3. Jennifer Sanderson- Business User
4. Pool One Development Team

## **Software Demonstration**

The Sprint 1 implementation was primarily focused on ensuring that Pool One provides robust access to adverse events related to drugs. The functionalities implemented are:

1. All adverse drug events
2. Adverse Drug Events Reported through Manufacturers
3. Adverse Drug Events Reported by Public
4. Adverse Drug Events Related to Hypertension

The demonstration went through each of the features listed in the Sprint 1 Backlog. After the completion of the demonstration the Product Owner as well as the rest of the customer team expressed satisfaction over the implementation of the features. Nevertheless, there were a few suggestions that could enhance the application: These are:

	<b>Recommendation</b>
1	Ability to narrow or expand the date range
